AUT OSMASHES HYDRANT ON NORWICH TOW STREET

A Dorr touring car bearing the registration No. 64,711, in which were riding the young couple, was driving on Tow street when it struck a hydrant and then into a pole near the Sacred Heart church at Norwich Town 11:50 o'clock Sunday evening.

The car had only been driven about 500 miles according to the speedometer, but is now a total wreck. The driver of the machine whose name could not be learned was making the corner near the church at a high rate of speed when he lost control of the machine. The car shot to one side of the road, crashed into a hydrant cutting it off close to the ground and then continued in its mad career into a telephone pole a short distance away, finally coming to rest with the front end on the sidewalk and part on the lawn.

The three occupants of the car were thrown out but luckily escaped serious injury. One of the men receiving head and shoulder blows and the other two were otherwise unharmed. The car is a total wreck and the engine and front end are smashed. The front axle broken, two wheels smashed and the chassis twisted out of shape. The hitting of the hydrant saved the car from pitching over an embankment at this point and probably saved the occupants from more serious injury.

The car was owned by Mr. and Mrs. J. H. Dorr. The car was driven by Mr. J. H. Dorr. The car was driven by Mr. J. H. Dorr. The car was driven by Mr. J. H. Dorr.
